

Sartaj Qamar

Android Developer

Address: Hijrat Colony, Karachi, Sindh, Pakistan | **Mobile Phone:** 03362203156 | **E-mail:** sartajqamar111@gmail.com

PROFESSIONAL SUMMARY

Highly motivated and detail-oriented Android Developer with over 1.6 years of hands-on experience in designing, developing, and optimizing modern mobile applications using Kotlin and Java. Proficient in Android Studio, MVVM architecture, and Firebase SDK, with a strong focus on performance, scalability, and user experience. Skilled in integrating RESTful APIs, managing Room databases, and implementing clean, maintainable, and efficient code. Adept at collaborating with cross-functional teams to deliver high-quality, reliable apps within tight deadlines. Demonstrated ability to debug, test, and optimize applications, reducing crashes and improving responsiveness across diverse Android devices. Experienced in utilizing Coroutines, Jetpack libraries, and other modern tools to enhance functionality and code quality. Possesses a solid foundation in UI/UX design principles, ensuring visually appealing and intuitive user interfaces. Known for analytical problem-solving, adaptability, and a proactive approach to adopting emerging technologies. Successfully contributed to multiple Google Play Store applications, consistently delivering robust and engaging user experiences. Eager to leverage technical expertise, creativity, and passion for innovation in a dynamic, growth-oriented organization.

CORE COMPETENCIES

Android Application Development | Kotlin & Java Programming | Android Studio & Jetpack Libraries | MVVM Architecture & Clean Code Practices | RESTful API Integration & JSON Parsing | Firebase (Authentication, Firestore, Cloud Messaging) | Room Database & Shared Preferences | UI/UX Design Implementation (Material Design | Coroutines & Multithreading | App Debugging, Testing & Optimization | Version Control (Git & GitHub | Agile / Scrum Methodologies | Problem Solving & Analytical Thinking | Cross-Functional Team Collaboration | Play Store Deployment & Maintenance

KEY HIGHLIGHTS

- Developed and maintained Android applications using Kotlin and Android Studio, ensuring optimal performance and smooth functionality.
- Implemented modern Android architecture (MVVM) for better scalability and clean code structure.
- Collaborated with designers and testers to deliver efficient and visually appealing applications aligned with project requirements.
- Integrated RESTful APIs and handled JSON data for seamless communication between client and server.
- Utilized Room Database and Shared Preferences for secure and efficient local data storage and retrieval.
- Debugged, tested, and optimized applications to minimize crashes and enhance app stability across devices.
- Ensured responsive UI design and smooth navigation to improve overall user experience.
- Contributed to the release and maintenance of multiple Android applications available on the Google Play Store.
- Followed Agile development practices, participating in sprint planning and daily team stand-ups..

PROFESSIONAL EXPERIENCE

Android App Developer

MileTap, Karachi, Pakistan, July 2025- Continue

- Developing and maintaining high-quality Android applications using Kotlin and Android Studio, with a focus on scalability, performance, and clean architecture.
- Collaborating with designers and backend developers to deliver seamless, user-focused app experiences.
- Implementing MVVM architecture, Jetpack components, and Coroutines to ensure efficient and responsive app behavior.
- Integrating RESTful APIs, handling JSON data, and managing local databases (Room DB, Shared Preferences) for optimized data flow.

Freelance Android Developer

Upwork Nov 2024 – Nov 2025

- Developing and maintaining high-quality Android applications using Kotlin and Android Studio, with a focus on scalability, performance, and clean architecture.
- Collaborating with designers and backend developers to deliver seamless, user-focused app experiences.
- Implementing MVVM architecture, Jetpack components, and Coroutines to ensure efficient and responsive app behavior.
- data flow.

Android Developer

NineSol Technologies, Islamabad, Pakistan | Nov 2023 – Nov 2024

- Developed and maintained Android apps using Kotlin and modern Android architecture principles.
- Collaborated with designers and QA teams to ensure seamless integration and high app usability.
- Optimized app performance through extensive debugging and testing, reducing crashes and improving app stability.
- Integrated JSON-based APIs to enhance data flow and responsiveness.
- Implemented Room Database and Shared Preferences for efficient local data storage.
- Contributed to multiple published applications, demonstrating consistency and attention to detail.

PROJECTS

- Passport Photo Editor App
- Resuming App
- AI Story Generator App
- [Speech to Text App]
- Auto Connect Bluetooth App
- AI Anime App.

EDUCATION & CERTIFICATIONS

Bachelor of Science in Computer Science,
University of Azad Jammu and Kashmir

2016-2020

TECHNICAL SKILLS

Languages: Kotlin, Java

Frameworks & Tools: Android Studio, Firebase SDK, Git, Retrofit, Coroutines

Architecture: MVVM, Clean Architecture

Databases: Room DB, Shared Preferences, SQLite

Core Expertise: RESTful APIs, UI/UX Design, Debugging, JSON Parsing, App Optimization

Soft Skills: Team Collaboration, Problem Solving, Agile Workflow
